

These are quick to knit because they are quite small, about 6-7" square. I like the little bumps created by the slip stitch making them perfect little scrubbers.

YARN: 1 Skein #102 allhemp6 or #102L allhemp6LUX- each cloth is approx 30gr (1 oz). You should be able to get 3 cloths from each 100gr skein. A great use for those little bits of yarn leftover from your hemp project.

NEEDLES: 4mm(6US) or something close.

GAUGE: It's a washcloth so it really doesn't matter so much about gauge. The cloth knit in this pattern grows a bit width-wise that's why I have you knit it longer so it will be somewhat square after a few washings.

CO 35 sts.

Rows 1-4: Sl1 st with yarn in front (wyif), knit to end.

Row 5: Sl1 wyif, k1, [k3, sl1 with yarn in back (wyib)] rep to last 5 sts, k5.
